✓ Auto tax calculations • ✓ Professional invoice templates • ✓ Automated payment reminders • ✓ Real-time stock tracking

No credit card required. Set up in minutes.

2. Trusted by Businesses

One Platform. Every Business Operation.

Komkits is an all-in-one business management platform that replaces scattered tools, manual registers, and error-prone spreadsheets with a single, connected system. Billing, inventory, purchases, payments, and reports all work together — so your data is always accurate, always up to date, and always at your fingertips.

10,000+ Invoices Created Daily | Happy Businesses Across India | 99.9% Uptime | Anywhere Cloud Access

3. Why Choose Komkits

Built for Growing Businesses. Designed for Real Life.

Traditional billing software slows you down with clunky interfaces, manual calculations, and features you never use. Komkits was built differently — fast, intuitive, and focused on what actually helps your business grow.

Simple enough to start today. No training manuals. No steep learning curve. If you can use a smartphone, you can use Komkits. Your team will be creating invoices within minutes of signing up.

GST compliance, handled automatically. Every invoice is GST-ready by default. Taxes are calculated automatically, HSN/SAC codes are supported out of the box, and filing-ready reports are one click away — so compliance never keeps you up at night.

Your entire business, in real time. Sales, stock, expenses, and pending payments — see everything on one live dashboard. Make decisions based on today's numbers, not last month's guesswork.

Secure cloud access, anywhere. Your data is encrypted, backed up, and available on any device. Run your business from the shop counter, the warehouse, or your living room.

Grows as you grow. Start with billing. Add inventory, multiple locations, staff accounts, and advanced reports as your business scales. Komkits grows with you — without forcing you to switch software ever again.

4. Key Features

Everything You Need to Run a Modern Business

 **Invoice & Billing Management** Create professional, branded invoices in seconds with auto-filled customer and item details, custom templates, and digital signatures. *Benefit: Bill faster, look more professional, and eliminate billing errors.*

 **GST Billing & Compliance** Fully GST-compliant invoicing with automatic tax calculation, HSN/SAC code support, and export-ready sales and purchase reports. *Benefit: Stay 100% compliant without hiring extra help or doing manual math.*

 **Inventory Management** Track stock across multiple locations in real time, with SKU and barcode support, low-stock alerts, and item-wise reports. *Benefit: Never oversell, never overstock — always know exactly what's on your shelves.*

 **Expense Tracking** Record and categorize every business expense, attach receipts, and monitor profitability at a glance. *Benefit: Know exactly where your money goes — and where you can save.*

 **Payment Tracking & Reminders** Track pending and partial payments customer by customer, and send automated payment reminders. *Benefit: Get paid on time and keep cash flowing without awkward follow-up calls.*

 **Reports & Analytics** Real-time dashboards for sales, purchases, taxes, inventory, and profit — beautifully visualized and export-ready. *Benefit: Make smarter decisions with numbers you can actually trust.*

 **Purchase & Supplier Management** Create purchase orders, track incoming stock, and manage supplier balances in one place. *Benefit: Streamline procurement and never lose track of what you owe.*

 **Customer Management** Complete customer-wise billing history, outstanding balances, and purchase patterns. *Benefit: Serve customers better and spot your most valuable relationships.*

5. Business Benefits

What Komkits Does for Your Bottom Line

Save hours every single day. Auto-filled invoices, instant tax calculations, and one-click reports eliminate the repetitive work that eats your time. What used to take an evening now takes minutes.

Boost team productivity. With everything in one system, your staff stops switching between apps, registers, and spreadsheets. Less duplication, fewer mistakes, more work done.

Improve your cash flow. Track every pending and partial payment, send automated reminders, and see exactly who owes what. Businesses using payment tracking get paid noticeably faster.

Reduce manual work and errors. Automation handles the calculations, stock updates, and record-keeping. No more transcription errors, missed entries, or mismatched totals.

Grow with total clarity. Real-time reports show you what's selling, what's profitable, and what's stuck on the shelf — so every growth decision is backed by data.

6. Complete Business Management

One System That Runs It All

Billing & GST Invoicing Generate polished, GST-compliant invoices, quotations, and proforma invoices in seconds. Custom templates, invoice numbering with prefixes, and digital signatures keep your brand professional on every document.

Inventory Management Real-time stock tracking across multiple locations, with barcode and SKU support, low-stock alerts, and stock adjustments — your inventory always matches reality.

Purchase Management Create purchase orders, receive stock, and keep procurement organized from request to delivery. Incoming goods update your inventory automatically.

Sales Management Monitor every sale as it happens. Track daily, weekly, and monthly performance, identify best-sellers, and spot trends before your competitors do.

Customer Management Maintain a complete customer database with billing history, outstanding balances, and contact details — everything you need to build lasting relationships.

Supplier Management Keep supplier records, purchase history, and payables organized in one place, so reordering and reconciliation take minutes instead of hours.

Expense Tracking Record expenses on the go, categorize them intelligently, attach receipts and notes, and generate expense reports whenever you need them.

Payment Tracking See pending, partial, and completed payments at a glance. Automated reminders nudge customers politely — so you don't have to.

Reports & Analytics From GST summaries and tax reports to sales analytics and profitability dashboards — get the insight you need, exportable and filing-ready.

User & Staff Management Give your team role-based access with the right permissions. Everyone gets what they need to work — and nothing they don't.

7. AI-Powered Business Intelligence

Turn Your Business Data into Smart Decisions

Komkits goes beyond billing. Built-in Artificial Intelligence works quietly behind the scenes — analyzing your sales, expenses, inventory, and customers to surface insights you'd never spot in a spreadsheet. It's like having a business analyst on your team, available 24/7.

AI-Powered Sales & Profit Analysis Understand exactly what's driving your revenue — and what's dragging it down. AI breaks down your sales and margins by product, customer, and time period. *Benefit: Know your real profit drivers, not just your top sellers.*

Smart Performance Dashboards Intelligent dashboards that highlight what matters most today — unusual spikes, slowdowns, and opportunities — before you even ask. *Benefit: Spot problems and opportunities the moment they appear.*

Revenue & Expense Forecasting Predict next month's revenue and expenses based on your actual business patterns, so you can plan cash flow with confidence. *Benefit: Plan ahead with forecasts, not gut feelings.*

Inventory Demand Predictions AI learns your sales cycles and tells you what to reorder, when, and how much — before stockouts cost you sales. *Benefit: Stock what will sell. Skip what won't.*

 **Customer Buying Pattern Analysis** Discover which customers buy what, how often, and when they're likely to buy again — perfect for timely follow-ups and repeat sales. *Benefit: Turn one-time buyers into loyal, repeat customers.*

 **Automated Business Health Reports** Receive clear, jargon-free reports on the overall health of your business — revenue trends, cash flow status, and areas that need attention. *Benefit: A complete business check-up, delivered automatically.*

 **Personalized Growth Recommendations** Actionable, tailored suggestions based on your data — from pricing opportunities to slow-moving stock you should clear. *Benefit: Get a growth roadmap built from your own numbers.*

8. Powerful Integrations

Connect Your Entire Business Ecosystem

Your business doesn't run in one place — and neither should your software. Komkits integrates seamlessly with the platforms you already use, bringing every sales channel and customer conversation into one dashboard.

 **Shopify Integration** Automatically sync products, inventory, customers, and orders between Shopify and Komkits. Every online sale updates your stock and books instantly — no manual data entry, no mismatches. *Benefit: Run your Shopify store and back office as one seamless system.*

 **WooCommerce Integration** Connect your WooCommerce store to import orders automatically, keep inventory accurate, generate GST invoices for online sales, and manage all your customers from one place. *Benefit: GST-ready eCommerce billing without lifting a finger.*

 **WhatsApp Business Integration** Reach customers where they already are. Send invoices, payment reminders, order confirmations, quotations, delivery updates, and promotions directly through WhatsApp Business. *Benefit: Faster payments and happier customers — on the app they check 50 times a day.*

 **Facebook & Instagram Integration** Turn social engagement into sales. Connect your Facebook and Instagram business accounts to track leads, respond to inquiries, promote products, and convert followers into paying customers. *Benefit: Make social media a real revenue channel, not just a marketing one.*

One Platform. Unlimited Possibilities.

Whether you sell online, in-store, or through social media, Komkits brings your sales channels, customer communication, AI insights, and daily operations together in one powerful platform — automating workflows, eliminating busywork, and accelerating your growth.

9. How Komkits Works

Up and Running in 4 Simple Steps

Step 1 — Sign Up in Minutes Create your free account — no credit card, no paperwork. Add your business details and GST information once, and you're ready to go.

Step 2 — Add Your Products & Customers Import your product catalog and customer list, or add them as you bill. Komkits remembers everything, so you never type the same detail twice.

Step 3 — Start Billing Instantly Create your first GST-compliant invoice in seconds. Taxes calculate automatically, stock updates in real time, and payments are tracked from day one.

Step 4 — Grow With Insights Watch your dashboard come alive with sales trends, stock levels, and profit reports. Use real data to make faster, smarter business decisions.

10. Industries We Serve

Built for Every Business Model

Retail Stores Fast counter billing, barcode scanning, and live stock visibility — keep queues short and shelves stocked, even on your busiest days.

Wholesale Businesses Handle bulk orders, tiered pricing, and large customer ledgers with ease. Track credit sales and outstanding balances effortlessly.

Distributors Manage multi-location inventory, supplier orders, and dispatches from a single dashboard — with complete visibility across your network.

Traders Buy, sell, and track margins in real time. Komkits keeps purchase costs, sale prices, and profits crystal clear on every transaction.

Manufacturers Track raw materials and finished goods, manage purchase orders, and keep production supplied without overstocking.

Service Businesses Create professional quotations and service invoices, track client payments, and manage recurring customers with complete billing history.

Growing Enterprises Multi-user access, role-based permissions, and scalable reporting — Komkits handles the complexity so your team can focus on growth.

11. Why Businesses Love Komkits

More Than Software. A Better Way to Work.

"Everything just works together." Billing updates inventory. Purchases update stock. Payments update your ledger. No syncing, no double entry, no gaps — just one connected system that keeps itself accurate.

Speed you can feel. Invoices that once took ten minutes now take ten seconds. Auto-filled details, smart templates, and instant calculations make billing the easiest part of your day.

Compliance without the stress. GST rules change; your workflow doesn't have to. Komkits keeps your invoices compliant and your reports filing-ready — automatically.

Clarity that drives growth. When you can see your sales, stock, expenses, and cash flow in real time, you stop guessing and start growing. That's the Komkits difference.

Support that has your back. From onboarding to everyday questions, our team is here to help you get the most out of every feature.

12. Frequently Asked Questions

1. What is Komkits? Komkits is an all-in-one business management software that combines GST billing, invoicing, inventory management, expense tracking, payment tracking, and business reporting in a single, easy-to-use cloud platform.

2. Is Komkits GST-compliant? Yes. Every invoice generated in Komkits follows GST-compliant formats with automatic tax calculation and HSN/SAC code support. You also get GST sales and purchase reports with easy export for filing.

3. Do I need accounting knowledge to use Komkits? Not at all. Komkits is designed for business owners, not accountants. The interface is simple and intuitive, and all calculations — taxes, totals, balances — happen automatically.

4. Can I try Komkits before purchasing? Yes. Komkits offers a free trial with no credit card required. Explore the full platform, create real invoices, and see the difference before you commit.

5. Which businesses can use Komkits? Komkits works for retail stores, wholesale businesses, distributors, traders, manufacturers, service providers, and growing enterprises. If you bill customers and manage stock or expenses, Komkits fits your business.

6. Is my business data secure? Absolutely. Your data is stored on secure cloud infrastructure with encryption and regular backups. Only you and the team members you authorize can access your account.

7. Can I access Komkits from multiple devices? Yes. Komkits is cloud-based, so you can log in from any device — desktop, laptop, tablet, or mobile — and your data stays perfectly in sync.

8. Does Komkits support multiple users and staff roles? Yes. You can add team members with role-based permissions, so each person sees only what they need — billing staff can bill, managers can view reports, and you stay in control.

9. Can Komkits handle inventory across multiple locations? Yes. Komkits supports multi-location inventory with real-time stock tracking, low-stock alerts, SKU and barcode support, and item-wise inventory reports for every location.

10. Does Komkits integrate with eCommerce platforms and WhatsApp? Yes. Komkits connects with Shopify and WooCommerce to sync products, orders, inventory, and customers automatically. You can also send invoices, payment reminders, and order updates directly through WhatsApp Business, and manage leads from Facebook and Instagram.

11. What can Komkits AI do for my business? Komkits AI analyzes your sales, expenses, inventory, and customer data to deliver profit analysis, revenue forecasting, inventory demand predictions, customer buying patterns, automated business health reports, and personalized growth recommendations — all in plain, simple language.

12. What if I need help getting started? Our support team is ready to help with onboarding, data setup, and any questions along the way. You can also book a free demo and we'll walk you through the entire platform.
